Shaun and Jim disposed of 2 piles at the park. Need to thank Jim for his help

Service calls are getting very expensive. Have Exec session next meeting to discuss.

Lake level is not anything we were involved in.

Insurance is down \$280.00 this year

We are going to water shield this year to stay ahead of it. There is a large improvement in the lake this year.

Park is going to stay closed because of fire season.

All levy paperwork is at the courthouse and approved for the ballot.

Operators Report

2 service calls one resulting in a pump replacement. Customer at fault so they have to purchase a new pump. 2 clogs on the home owner side of pump.

Main lift station is alarming. Called H&R Complete and the pump has seal failure that is allowing moisture to get into the housing. Pump still runs and is pumping, it could be hours, days or months until total failure, so need to budget for 30K, Do not order ahead as it is easy to procure and then you have a warranty. Just need to be thinking about it.

We have 5 full pump stations in stock (vault, pump, control panel) 1 singular pump, need to order 2 more. Lots of pump repair parts in stock.

Lagoon is evaporating nicely will be no need to irrigate this year. No leakage from the underdrain swales,

Public comments

Large improvement in lake this year
